ABOUT ME

AI & Machine Learning undergraduate with hands-on experience in Python, Machine Learning, Natural Language Processing, and Computer Vision. Skilled in developing intelligent applications, analyzing data, and building practical software solutions. Passionate about Artificial Intelligence, Full-Stack Development, and emerging technologies, with a strong focus on creating impactful real-world applications.

EDUCATION

G H RAISONI COLLEGE OF ENGINEERING & MANAGEMENT, PUNE B.Tech – Computer Science & Engineering (Artificial Intelligence & Machine Learning)	2023 – 2027	CGPA: 8.79
G.R.P. SABNIS JUNIOR COLLEGE, NARAYANGAON Higher Secondary Certificate (Class XII).	2023	Percentage: 66.33%
GRAMONNATI MANDAL'S MADHYAMIK VIDYALAY, GUNJALWADI Secondary School Certificate (Class X)	2021	Percentage: 87.00%

SKILLS

Programming Languages	Machine Learning & AI	Data Analytics	Web Technologies	Tools
- Python - SQL - JavaScript	- Machine Learning - Natural Language Processing (NLP) - Computer Vision - Scikit-learn - Pandas - NumPy - OpenCV	- Power BI - Excel - Data Visualization	- HTML - CSS - JavaScript	- Git - GitHub - VS Code

PROJECTS

1.Resume Analyzer

Resume Analyzer

- Developed an AI-powered Resume Analyzer using NLP techniques for resume-job description matching.
- Implemented text preprocessing, skill extraction, and similarity scoring using Python and Scikit-learn.
- Built a user-friendly interface for automated resume evaluation.

2.Customer Segmentation using Machine Learning

Customer segmentation project

- Performed customer segmentation using K-Means clustering on customer behavior data.
- Conducted data preprocessing, exploratory analysis, and visualization to identify meaningful customer groups.
- Improved understanding of customer profiles for targeted marketing strategies.

3. Gesture Control System using Computer Vision

GESTURE CONTROL SYSTEM

- Developed a gesture recognition system using Computer Vision and OpenCV.
- Implemented hand tracking and gesture detection for touchless system interaction.
- Enabled real-time execution of commands based on recognized gestures.

4.Sales Analytics Dashboard

- Built an interactive Power BI dashboard to analyze sales, profit, and regional performance.
- Designed KPI-driven visualizations and business reports using the Superstore dataset.

CERTIFICATIONS

- Generative AI Mastermind** **Outskill Foundation**
 - Learned Prompt Engineering, Generative AI tools, and AI workflows.
- Green Skilling and AI** **Edunet Foundation**
 - Completed training focused on sustainability, emerging technologies, and AI applications.
